OBJECTIVE

I'm a Frontend Developer and UI/UX Designer with 3 years of experience in building modern and responsive web applications. My skills include HTML, CSS, JavaScript, and various frontend frameworks.

I have a strong eye for design and a keen attention to detail, ensuring that every pixel on the screen looks exactly as intended. I'm also well-versed in usability and accessibility, making sure that the user experience is smooth and enjoyable for all.

In my previous work, I have developed and maintained various projects for small to large-scale businesses, ranging from simple landing pages to complex web applications with thousands of users. I take pride in writing clean and maintainable code that is easily scalable.
